高效离心包衣机

High-Efficiency Centrifugal Coating Machine

高效离心包衣机

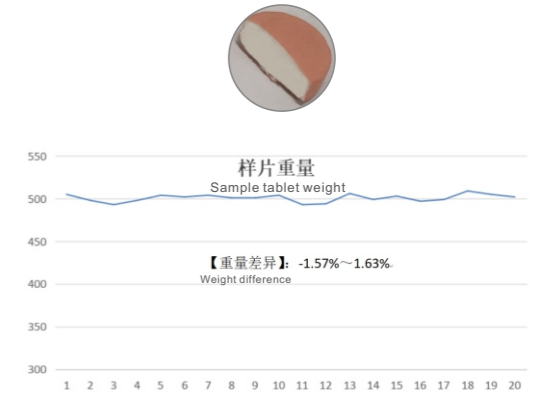

High-Efficiency Centrifugal Coating Machine

高效离心包衣机是一种革命性的全自动、高性能、高密闭、锅次连续化的片剂涂层设备，其采用最新结构使得片剂形成瀑布状连续翻滚流化，片剂各外表面在喷涂区停留时间RSD小，包衣膜层均匀。

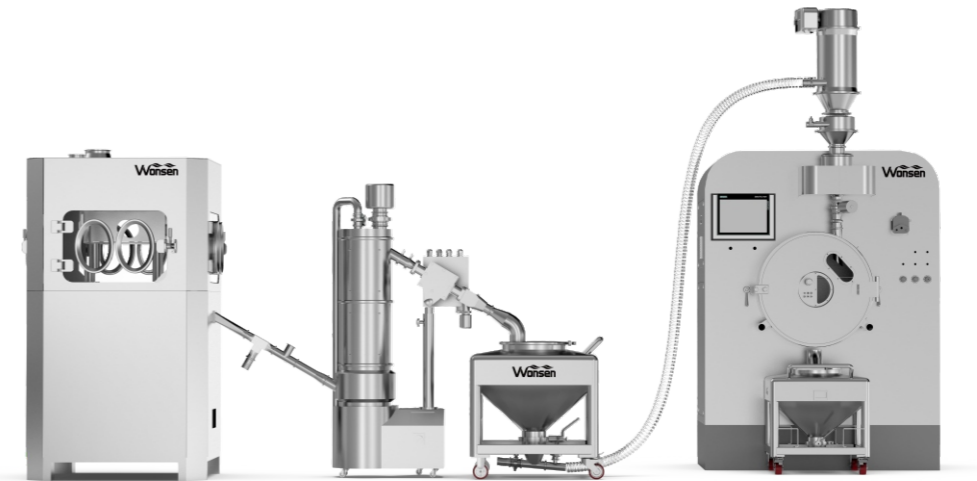

It is a revolutionary fully automatic, high performance, high containment, continuous batch coating equipment, which adopts the latest structure to make the tablet form a waterfall continuous tumbling flow, the residence time of the outer surface of the tablets in the spraying area is small, so that the coating film layer is uniform.

技术特点 Technical Features

1. 效率高;
 2. 膜层均匀性好;
 3. 可自动进出料;
 4. 可连续化生产;
 5. 密闭等级达OEB4、OEB5。
1. High efficiency
 2. Uniform coating quality
 3. Automatic loading and discharging
 4. Continuous production
 5. High containment OEB level: OEB4, OEB5

连续包衣
Continuous coating

压片
Tablet press

筛片
Tablet deduster

离心包衣
High efficiency centrifugal coating machine

技术参数 Technical Parameter

型号 Model	LBJ-160	LBJ-320
包衣锅宽度 (mm) Coating Pan Width	160	320
单锅产能 (kg) Single-pan Capacity	3-6	8-15
包衣时间 (min) Coating Time	10-20	10-20

注：生产能力根据素片形状、重量及包衣液有关。
本产品可按用户要求定制生产。

Note: Production capacity depends on tablet shape, weight and coating solution.
This product can be customized according to user requirements.
